Wherever you use a mic to communicate, you can use Voicemod. Our epic meme soundboards work with your in-game chat, all your Discord servers, whatever streaming software you choose. Want to bleep out words at the press of a soundboard button? Drop a Sad Trombone when your team gets wiped out? Cue up some suspenseful music for your tabletop RPG? We got you.Play sound clips instantly for reactions from your group chats and streaming audience. Upload any sound, or loot free sounds from the Community. Voicemods free soundboard app is unlimitedand it works anywhere. No lag, no cap, no fuss.BUT WHAT ON EARTH IS A SOUNDBOARD?Picture the scene. Youre playing a couple of rounds of a team-based FPS with five of your best mates online. Youre owning the chat, yelling out commands and leading the team. When suddenly, youre sniped from across the mapand you hear a Sad Trombone. Whats going on?Your friend has discovered soundboards. With soundboards, you can organize audio clips and then play them during your voice chats and streamsany sound memes you like. And with Voicemods free soundboard for gamers and beyond, you have unlimited soundboards ready to supercharge your chat!A SOUNDBOARD THAT WORKS ANYWHEREWherever you use a mic to communicate, you can use Voicemod. Our soundboards are unlimited and unlockedbuild a collection of top memes and in-jokes, then use it anywhere. Playing online? Use our soundboards to elevate the game. Chatting on Discord? Bring your whole sound with you, whichever server youre on.UNLIMITED SOUNDS!A soundboard is nothing without sounds to play. With the Voicemod Community, youll find new sounds every time you look! Over 300,000 sounds curated and uploaded by users like you, with more added every day. You can add Community sounds to your soundboards with a single clickno downloads, no fuss!Thats not allif youve got a sound you want to share with the world, you can upload it to the Community, add artwork and tags, and unleash it on every Voicemod user.CHANGE YOUR VOICE. TOOVoicemod is more than the ultimate meme soundboardits also the worlds best real-time voice changer! Just select a voice changer from our huge range, and start speaking with your new voice.Every one of our voice changers is customizable, and you can add your favorites to any of your soundboardsbuild a themed collection all in one place, and use it wherever you want to supercharge your sound! Want to throw off enemies by speaking in the innocent voice of a kawaii anime highschooler? Voicemod makes it happen. Need to change your voice so you sound like a wood elf during a tabletop RPG? We can do that. Just want your cheap microphone to sound better? Select Voice Enhancer and off you go.HOW DO I ADD SOUNDS?Found the perfect sound? Need to add it to your soundboard and begin using it in your chat right away? Heres how.Find a sound you like! Got an audio clip of a funny meme, or a cool sound you want to add? Great! Open up the Voicemod app, select your soundboard, or start a new one.Click Add. Youll see two options: Add existing content and Upload sound. Well get into existing content laterfor now, click Add sound.Add your sound! Voicemod supports .wav, .mp3, .flac and .ogg files. Not only will you be an audio memelord, your uploads will sound great too.Thats it! Youve successfully added your sound! Now go make some noise. Skip to content Build your own voice changers with Voicelab a fresh set of powerful, easy-to-use effects. From iconic AI characters to dramatic pitch, ambience, and devicesit all works wherever you use your voice. Download for Free For Windows 10/11 & macOS Voicelab 2.0 isnt just a voice changer its how you create a voice that fits you or flips it entirely. Mix FX, ambience, and AI-powered magic into voices no ones heard before. Hit play and ask yourself: what would your voice sound like? Getting started with Voicelab is quick and easy: Download Voicemod & Open the Voicelab tab Select the Voicelab feature. Make sure the Voice Changer and Hear Myself toggles are set to ONthat way youll hear your new voice in real-time! Add and tweak over 140 voice effects! Start playing! Add some effects, there. Youll soon notice how powerful these voice effects really are! Share your voice with the community Save and name your new voice, then go use it wherever you like. Its all yours. Have fun! Voicelab 2.0 makes voice creation as easy as picking your iconic AI character, device FX, mic presets, ambience, and spaces. No skills needed, just pure creative control and vibes.Start from scratch or remix an existing voice to make it yours. All your favorite Voicelab PRO effects are still here, now reimagined in a more powerful, expanded way.And once youve nailed your creation, hit publish. Share your voice with the entire Voicemod community, drop it to your friends, and even inspire others to remix their own.This isnt a reset. Its a glow-up. Voicelab 2 lets you layer Characters, Devices, and Surroundings to craft voices that feel immersive inside any gaming moment.Mix bold personalities with gritty megaphones, vintage radios, ambient spaces, and eerie background noise. Whether youre building a haunted anime ghost or a space hero with a boombox filter its all drag-and-drop simple.Each module brings its own flavor. Want something cinematic and sharp? Start with Power Pitch and drop it into a reverb-heavy dungeon. Want cozy chaos? Try a cute character piped through a walkie-talkie in a bedroom.The best way to explore? Start layering and let the FX do the talking. Discover a massive library of voice changers and soundboard sounds made by other users all ready to use with no extra clicks. Search directly in the app or browse the Community section to find something wild, weird, or just plain perfect.Feeling creative? With Voicelab 2.0, you can create and publish your own voice changers for the world to enjoy. Build it, name it, and let the community run wild with your creation.
