Description Additional information Vapor Tower Puma Baby 80w VW TC Box Mod Vape Abs Cover E Cigarette RDA Rdta Support 18650 BatteryAttention:1. every coating image is unique, so you get all different color mods. 2. The mod body front and back are two different pictures. 3. This kit is battery removable, without 18650 batteries in. You'd better have a piece of high drain 18650 Buy the battery yourself. Instantaneous output current>= 30a would be better.Puma baby box mod:Size: 40mm (Long) * 24mm (Width) * 82mm (Height) Net weight: 47g Material: abs Performance: 5in-80th century thread: 510 voltage range: 3.3 V-4.2 V Output voltage: 0.0-8.5 V Coil resistance: 0.1-3.5 Ohm TC-Modus: at/of/ss316 Continuous vape time: 10 seconds Fast balance charging: 5v/750maPackage:1 x puma baby mod (without battery) 1 x Micro-USB-Kabel 1 x User manual Thank you for choosing Vapor Storm Puma Baby box mod/kit. Please read this manual carefully before use. If you need additional information or have any question about the product or its use, please consult your local agent, or visit our website at www.vstormecig.com 1xPuma Baby mod(No battery inside) 1xUSB cable 1xUser manual Output wattage:5-80w Output voltage:0-8.5v Current range: max 35A Continuous smoking time:10s Resistance range:0.1ohm-3.5ohm Fast balance charging: DC 5V/750mA Coil supporting: Kanthal, Ni200, Ti01, SS316 Display:0.91 inch 96*16px Material:ABS Thread:510 Size:82*24*40mm Net weight:47g 1.Power on/off: Open the back cover, put one high drain 18650 battery in correct way into the device and finally close the back cover. The device can be powered on or off by pressing the fire button 5 times which the OLED screen shows "Vapor Storm" logo or "SYSTEM OFF" simultaneously. 2.Power/Temperature Lock&Unlock : Press the "+" and "-" simultaneously to lock or unlock the "+" and "-", you can still vape with the power or temperature you settled. 3.180 Degree turn over of the screen. Press the "+" and fire button simultaneously, the content in OLED screen will be turned over for 180 degrees. 4.Intelligent Auto Sleep: The OLED screen will shut off automatically if there is no operation in 15 seconds. 5.Vaping: When the device is powered on, long press the fire button to take a puff. 6.Charging: Connect to charging port, the battery level is respectively displayed on the screen. 7.Switch vaping modes: Quickly click the power button 3times to change from power mode to three different temperature control mode (TEMP). There are 3 Temperature control modes: NI/TI/SS, press "+" or "-" to select the mode you want, press fire button to confirm. Please note that, in the Ti mode must be Ti01 Coil, in Ni mode must be Ni200 coil, and in SS mode must be SS316 coil. 8.Power mode(VW): When set in power mode, the device can support a coil whose resistance is within the range of 0.1ohm-3.5ohm. When the battery voltage is below 2.8V when you are vaping, the power will automatically drop to protect the battery. 9.Adjust wattage: In this mode, the output wattage can be adjusted from 5W to 80W by pressing "+" to increase or "-" to decrease. Long press "+"or "-" can rapidly increase or decrease the wattage level. 10.Temperature control mode(TC): Choose NI, TI or SS according to the heating wire you are using. TC °F is degree Fahrenheit and TC °C is degree Celsius. The temperature range is 100 °C to 315 °C or 200°F to 600°F. When the setting is 315 °C, press "+" to change to 200°F. The setting of °F and °C is a circle like this: 200 °F → 600 °F → 100 °C → 315 °C →200 °F. Each press of "+" or "-" will increase or decrease the temperature setting and long press "+" or "-" can rapidly increase or decrease the temperature level. 11.Over puffing Protection: Each time when vaping time exceeds 10 seconds, the output shuts off automatically with "OVER 10S" display on the screen. 12.Atomizer Short circuit & No Atomizer Protection: When atomizer short circuit occurs or the resistance is lower than 0.075ohm, the screen will display "... G", meanwhile it also will show "ATOMIZER SHORT" when you press fire button; The screen will display "CHECK ATOMIZER" when there is no atomizer connected, not connected well or when the resistance is over 4ohm. 13.Low Battery Protection: When the voltage of the battery is below 3.2V during idle loading, the screen will display "LOW BATTERY" when you press the fire button. 14.Temperature Alert: If the temperature of device is over alert temperature(70°C), the output will shut off automatically and the screen will display "TOO HOT". You can continue to vape after it cools down. Vapor Storm newly launched Puma Baby Mod. It is an excellent combination of fashion and technology. It comes with graffiti series design, offering you visual feast. Made of high-quality ABS plastic material, it will give you ultra great hand-feel. Powered by single 18650 battery, the mod could achieve 10s continuous vape time and fire up to 80W max output. The 0.91-inch OLED display could show all the important data. Together with powerful functions and multiple protections, the mod will not let you down.Brand: Vapor StormUnit: 1SetSize: 82*24*40mmMaterial: ABS (lightest Mod)Battery type: Single 18650 battery(Not included)Power range: 5-80WVoltage range: 0-8.5VDisplay: 0.91-inch OLED displayResistance range: 0.1-3.5ohmContinuous smoking time: 10sCurrent range: Max 35AFast balance charging: 0-8.5VVoltage range: DC 5V/750mAThread: 510Package: Gift BoxEach set contain:1pc Vapor Storm Puma Baby Mod1pc USB Cable1pc User Manual The Vapor Storm Puma is an interesting cat (pardon the pun). This squatty, triangular/hexagonal vape mod hits a lot of the right notes on first impression. For starters, the soft-touch plastic results in one of the nicer-feeling mods in a while. Whereas the Rader Mage and VCIGO were more plasticky, the Vapor Storm Puma has an almost velvety sheen to it, which really makes it sit nicely in the palm. "ELEMENT Visually, the Puma will be a polarizing device, depending on which color/pattern scheme you choose. My oddball test model was namedich I guess ties into the weird, "Old Story," whesign aesthetic. Featuring headlines, ads, old newspaper d and a whole bunch of very strange words. (Seriously, the side of my mod says, top to bottom, "For You," "LONDON," "GOOD morning OK Today How GOOD for you TODAY" closing with an equally confusing, "YES." If this is how your morning paper looks, I highly recommend a subscription to the Washington Post.) This pattern extends over the plastic fire key and operation button, all the way around the mod. Maybe I'm old-fashioned, but I would have loved a design that even moderately reminded me of ... oh, I don't know ... a puma? Maybe it's me. The 1.3-inch display, on the other hand, is fantastic. No, it's not color, or high-res, or even that pretty. But for the limited real estate available here, Vapor Storm did a hell of a job cramming a metric TON of information here, in a very legible manner. Similar to iJOY's old "Captain" screen format, the Vapor Storm Puma gives this part very, very right. On the flip side of the coin is the weak, barely-there battery door, which is technically held in place by magnets but might as well be connected by nothing but prayer. Before I could hit the fire key the very first time, this door had already fallen into my palm. A firm squeeze of the back panel seemed to rectify the problem, but ultimately, the magnets lose out to gravity every time. (It doesn't help that the door cutaway doesn't seem to fit the intended device.) Thankfully, the buttons themselves are firm and responsive, even for plastic construction. Not only is the tactile feedback good, but they're also responsive, leading to a very fast-ramping mod. Introduction Vapor Storm Puma Baby, the upgraded vaping device of the Vapor Storm Puma, is still made of the light weight ABS material for good hand feeling. Decorated with unique graffiti series design, the Puma Baby Kit brings you more fashion and passion. It mainly consists of the Puma Baby MOD and the Hawk Tank. Powered by single 18650 battery, the Puma Baby can fire up to the output of 80W with advanced TC mode. And the Puma Baby also has 0.91 inch OLED display, which can bring you detailed working information. While the Vapor Storm Hawk Tank has 2ml e-liquid capacity with an extra 6ml large bubble tube, so you can have more vaping choice. Equipped with the 0.2ohm mesh coil, the Vapor Storm Hawk Tank can produce much better vaping flavor. Mod:The Vapor Storm Puma Baby Box Mod is constructed from ABS, with unique graffiti patterns and attractive colors, the mod is lightweight and convenient to carry around. Powered by single 18650 battery (NOT INCLUDED), the Puma Baby Mod is able to reach up to a maximum output power of 80W.Tank:The Vapor Storm Hawk Tank is a 24mm sub ohm tank with 6ml of juice capacity. It comes with a 0.2ohm mesh coil head and adjustable bottom airflow control for pure and optimal flavor. Package includes: 1 x Vapor Storm Puma Baby MOD(Without Batteries) 1 x Vapor Storm Hawk Tank(2ml) 1 x 0.2ohm Mesh Coil 1 x Extra Glass Tube 6ml 1 x Spare Parts 1 x USB Cable 1 x User Manual The Vapor Storm Puma Baby 80W Box Mod is a single 18650 battery mod, implementing an ABS Chassis construction, 0.91" OLED Display Screen, and is considered one of the lightest mod available on the market. The Puma Baby by Vapor Storm utilizes a single high-amp 18650 battery situated behind the magnetic battery door to achieve wattages of up to 80 and resistances as low as 0.1ohms. In addition, the Puma Baby has visually striking graphics in a graffiti style that is sure to catch the eye of any passerby. These graphics are played over the lightweight ABS chassis construction. Furthermore, on the user interface, a center-mounted 0.91" OLED Display screen relays critical vaping data back to the user, setting the stage for any adjustments to find that perfect vape.Vapor Storm Puma Baby 80W Box Mod Features:Dimensions - 82mm by 40mm by 24mmWeight - 47gProprietary ChipsetSingle High-Amp 18650 Battery - Not IncludedWattage Output Range: 5-80WVoltage Output Range: 0-8.5VResistance Range: 0.1-3.5ohmNickel, Titanium, Stainless Steel, and Kanthal CompatibilityLightweight ABS Plastic Chassis Construction0.91" OLED ScreenIntuitive Firing ButtonTwo Adjustment ButtonsMagnetic Battery DoorMicroUSB Charging PortSpring Loaded 510 ConnectionIncludes:1 Vapor Storm Puma Baby Mod1 MicroUSB Cable1 User ManualPlease have a great understanding and technical knowledge on how to use this product in order to properly use it.We highly recommend using an external battery charger for 18650 battery mods, as it helps with balanced charging and prolongs the life of the battery and mod, such as from worn out microUSB port. Never use damaged or improperly wrapped batteries with this device. We recommend all 18650/20700/21700 battery mods to use matching batteries with similar brand, model, and battery state at all times.In order to use temperature control feature, it requires use of nickel, titanium, or stainless steel coils.Note: There is always an inherent risk when using any rechargeable batteries at any time and under any circumstances. ElementVape.com and any of ElementVape.com's parent and subsidiary companies are not held responsible for any damage for any modification of the batteries, chargers, devices and other products that we carry in any form or shape, this is including pack making.ElementVape.com and any or all of ElementVape.com's parent and subsidiary companies will not be held responsible or liable for any injury, damage, or defect, permanent or temporary that may be caused by the improper use of a Li-ion (Lithium-ion), LiPo (Lithium-ion Polymer) and any rechargeable battery/batteries as well as chargers. Please have a greater understanding of the batteries/chargers you are using and how to care for them properly.When working with Li-ion (Lithium-ion), LiPo (Lithium-ion Polymer) and any rechargeable cells, please be cautious and carefully use as they are very sensitive to charging characteristics and may explode or burn if mishandled. Please make sure that you have great knowledge on all rechargeable batteries before you use them. Always charge batteries at the clean and fire-proof surface. Never leave charging batteries unattended. If you see that there are visible damages on the batteries, please do not use. Always keep, store and transport the rechargeable cells in a safe, non-conductive container in a controlled environmentDo not use any rechargeable battery as well as any battery charger if any visible damage is present, as well as if the cell or charger has been stressed through mishandling, accidental or otherwise, even if damage may not be visible. Always store and transport rechargeable cells in a safe, non-conductive container in a controlled environment. Please dispose of battery cells, chargers or any other electronic devices in accordance with local laws and mandates. La Vapor Storm Puma Baby è una MOD realizzata in ABS .Con una batteria singola 18650 (non inclusa), la MOD ha un wattaggio massimo di 80W con tempo di scarica continua di 10 secondi e TC.Dispone di un display da 0.91 pollici che mostra tutte le informazioni essenziali.Caratteristiche:Dimensioni: 82 x 24 x 40mmMateriale: ABSTipo di batteria: batteria singola 18650 (non inclusa)Potenza Massima: 80WVoltaggio in uscita: 0 - 8.5VRange resistenza: 0.1 - 3.5 OhmTempo di scarica continua: 10sPresenza micro-USB per ricaricarlaincluso nella confezione:1x Vapor Storm Puma Baby Mod1x cavo USB1x Manuale utente La nostra selezione di sigarette elettroniche comprende una varietà di modelli adatti a tutti i livelli di esperienza, dai principianti ai veterani del vaping.
