Also, which auto clickers youd prefer to go with and why? iPad I have been experimenting with ways to make something click for a very long period of time so I can let a game run without me having to do anything and I so far have not found something so I would like to ask for some help from the community. iPad mini 4, iPadOS 14 Posted on Aug 16, 2021 9:02 PM Reply Posted on Aug 17, 2021 3:29 PM Hello PandaGamer101. Thank you for using Apple Support Communities. It sounds like you'd like to know if it's possible to create an auto clicker or have something click for a specific period of time without you touching your device. Allow us to assist in any way we can. We also notice that you're already coming from a helpful resource below: Use Switch Control to navigate your iPhone, iPad, or iPod touch - Apple SupportDepending on your gesture, it won't be for a very long period of time. You apply a loop to your gesture, and it will loop up to 10 times. If you're on iPadOS 14, you can go to Settings > Accessibility > Switch Control. Select Switches > Add New Switch > Screen > Full Screen > Select Item. Once you've done this, go back to Accessibility > Recipes > Create New Recipe > Name your recipe then select the Switch you had created, followed by custom gesture. This option will allow you to tap on your display "click" the number of clicks you want. Just be sure that "Launch Recipe" is showing the auto-clicker gesture you had created. While in your game, you should be able to triple-click your Home button to launch the gesture you had created. Just remember, it's not for a very long period of time, just loops up to 10 times. Just in case, here is another resource below: Set up Switch Control on iPhone - Apple SupportWe hope this information is useful. Cheers.
