Features The RevMaster frame is made using a 17-step manufacturing process for quality and durability. Belt: The LeMond Fitness RevMaster Sport uses a smooth Kevlar belt instead of a chain. The result - a smooth and QUIET!! ride. Never needs to be replaced due to stretch, or oiled like the chain bikes do. Brake Pad: Designed with the resistance pad on top of the flywheel for improved long-term durability. Brake & Resistance: Designed for ease of use, the resistance knob adjusts easily. Just turn the knob to adjust (increase or decrease) the intensity of your workout. By simply pressing down on the same knob, the braking system activates quickly and safely. Micro turn adjustment allows smooth, safe transitions to higher intensity levels. Cranks: Designed to withstand greater force loads than conventional bikes, the LeMond Fitness RevMaster Sport features an exceptionally strong custom BMX bottom bracket and cranks for exceptional product durability. Floor Levelers: Easy adjustment for uneven floor surfaces. Flywheel: Drop in mounting - easy service, no adjustments ever needed, easy to reach high RPMs with less "runaway" feeling and safe for knees. Frame: This frame is more stable and allows fast, easy access to all seat, handlebar & height adjustments. This creates a comfortable, high performance custom fit for all users! Steel main frame undergoes a 17-step rust inhibitor process prior to durable powder coat process. Classic Handlebars (not original style handlebars): Traditional handlebar design which allows multiple hand positions and ease of use - does not accept LeMond RevMaster Pilot. Micro-Adjust Fit: No more holes limiting adjustment options! Height and fore/aft measurement ruler marks allow for quick adjustments for a proper fit every time. Saddle: Anatomically designed, ultra-comfortable saddle, that provides more than enough range to properly fit almost any person, regardless of height. Suggestion: A taller person may want to use the front hole of the slider, which enables this saddle to be moved further back. Transport Wheels: Designed for easy transport! A rock-solid construction and the extra-wide base ensure outstanding stability. V-Clamp: Unique V-clamp and rotated tube design for enhanced stability. Water Bottle Holder: Water-bottle holder is mounted to the handlebars allowing you to take a drink without disrupting your exercise form. SPECS Product Width: 23.00" (58 cm) Product Height: 45.00" (114 cm) Product Length: 45.00" (114 cm) Machine Weight: 112 lbs. (51 kg) OPTIONS Optional: Dual Sided Pedals (extra charge - \$99) TheLeMond Fitness RevMaster Sport Cycling Bike is manufactured to the most exacting standards - with 100% of all bikes tested prior to final packaging to insure customer satisfaction. This allows us to offer you an exceptional warranty. The next generation LeMond RevMaster offers you some great upgrades to the classic model. For maximum riding comfort, the new narrower crank design replicates the geometry of a great road bike. New Cam handles and increased adjustment ranges to seat and handlebars create the best custom fit available and gives you greater muscle involvement. The 4-way microfit also lets you cycle in an upright position or pedal stretched out and low, which is ideal for triathletes. Improved corrosion resistance by using electroless nickel plating and a new 2 piece bottom bracket cartridge make the RevMaster Pro even easier to maintain and service - with most components pre-assembled. NEW Next Generation X-FrameGives you a better ride and allows easy access to all seat, height and handlebar adjustments. Plus - new Bottom bracket cartridge has a 2 piece design for modular service. NEW Cam HandlesComfortable and easy to use, offers quicker adjustments without the hassle of pop-pins and threaded handles. NEW More Adjustment RangesAllows a better fit with more comfort. Improved Corrosion ResistanceNew electrolytic nickel plating, stronger than stainless. Fender With Integrated Brake AssemblyProvides improved braking and doubles as a moisture guard. Kevlar Belta Kevlar belt instead of a chain. The result is a smooth and QUIET ride. Our belt never needs to be replaced due to stretch, or oiled like the chain bikes. Brake and ResistenceDesigned for ease of use, the resistance knob adjusts easily. Just turn the knob to adjust seasily. Just turn the knob to adjust seasily. Just turn the knob to adjust seasily. Increase or decrease or decrease or decrease or decrease or decrease. adjustment allows for smooth, safe transitions to higher intensity levels. Custom Cranks & bottom bracket designed to withstand greater force loads than conventional bikes. Easy to switch seat optionsPost will accommodate personal preferences. Specifications: Height: 46" (106.7 cm) Length: 42" (116.8 cm) Width: 23" (58.4 cm) Weight: 143 lbs. (65 kg) Warranty: Frame: 5 Years Pedals: 1 Year Seats, Grip, Handlebar, Posts: 3 Years Bottom Bracket, Bearings and Tension Assembly: 2 Years Pedals: 1 Year Seats, Grip, Handlebar, Posts: 3 Years Bottom Bracket, Bearings & Reviews Ratings Snapshot 5 (2) 4 (0) 3 (0) 2 (0) 1 (0) Would recommend this product.
