future-forward mindset, were helping create a more circular economy where materials can be recycled and reused. Frequently Asked Questions GalaxyZFold7 comes in Blue Shadow or Jetblack. We also offer a Samsung.com only color, Mint, which is exclusively for customers who purchase on our site. Go to Design There have been
several innovations made to GalaxyZFold7 that set it apart from not only GalaxyZFold6, but any other foldable smartphone on the market. First, the expansive displays both inside and out. The cover screen is now 6.5" corner to corner, while the main screen opens up an impressive 8" with a wider ratio that provides a more seamless multitasking
experience. And although the displays are larger, the phone itself has been slimmed down significantly to make it more portable than any GalaxyZFold before, both folded, unfolded. Unfolded, Unfold
features a 21:9 aspect ratio, similar to that of bar-type premium smartphones. This improved durability. The cover screen has
been upgraded with Corning Gorilla Glass Ceramic 2, a ceramic-enhanced glass that is more durable while maintaining the clarity of the display. This is the first Z Fold model to include this innovative glass. The back glass is made of Corning Gorilla Glass Victus 2. The frame is enhanced to be more durable as well, using Advanced Armor Aluminum for
the first time on any Galaxy device. The hinge housing is strengthened as well, with the Armor FlexHinge keeping your folds and unfolds protected.., Go to Durability GalaxyZFold7's camera system includes 5 cameras: a camera on the cover screen and the main screen and a pro-grade triple rear camera. The most impressive upgrade for
GalaxyZFold7's camera is the inclusion of the high-resolution 200 MP Wide-angle camera, the same camera lens available on GalaxyS25Ultra. With this ultra-level 200 MP camera and the ProVisual Engine built into the advanced processor, you'll be able to capture clear, crisp images in good lighting conditions or low light. Unfolded, the main screen
camera is now 10 MP with a wider angle, allowing you to include even more of the party in the group selfie. And the expansive, immersive 8" display lets you see the results in clear, vibrant detail, making editing and previewing even better than before., Go to Camera GalaxyZFold7 is powered by the most advanced Snapdragon mobile processor. It's
customized specifically for Galaxy, enhancing the performance of everything you do on your phone from using AI to multitasking to taking video. It also features improved real-time ray tracing and Vulkan optimization, creating a more immersive gaming experience with incredibly smooth and detailed graphics. This experience is even better on large,
high-resolution screens that are Galaxy's brightest and smoothest yet, with a max brightness of 2600 nits and a refresh rate of up to 120 Hz., Go to Performance With Galaxy's most powerful processor built in, GalaxyZFold7 offers multi-modal AI that adjusts itself to suit your life, your needs and even your conversation style a true AI companion. You
can access Gemini Live at the tap of a button. It gives you answers in real time, even asking questions to prompt a multi-turn conversation, ensuring that you get the information you need. There is also a personal assistant, NowBrief personalized updates that are sent throughout the day which you can even access via the Now Bar right from the cover
screen. It learns your habits and patterns, offering suggestions and prompts depending on your schedule and activities.
