The Elder Scrolls Online allows players to choose from multiple classes. There are four classes in the base game, and three more have been added to the game in subsequent chapters. Each class can be played as a tank, healer, or damage dealer. This system encourages build diversity and gives the classes their distinct identities. However, with so
many classes available, it can be a bit overwhelming for new players to choose one. This article lists the best classes for beginners in the title. Note: This list is subjective and solely reflects the opinions of the writer 5 easy-to-play classes in The Elder Scrolls Online 1) Arcanist The Arcanist Wields the secrets of Apocrypha (Image via ZeniMax Online 1) Arcanist The Arcanis
Studios) The Arcanist is the latest class in The Elder Scrolls Online, added in the Necrom Chapter. It harnesses the energy of Apocrypha and boasts a unique mechanic in the form of Crux, a special type of resource that can be generated by using specific abilities. Fatecarver is a highlight for the damage-dealing skill line as it channels a beam of energy
with a high base damage further buffed by the number of Crux generated. It allows less complex rotations that deal significant damage. Runic Jolt is another skill unique to Arcanists in the Templar skill lines (Image via ZeniMax Online Studios) The
Templar is one of the easier classes to play in The Elder Scrolls Online. It provides a variety of utilities to players alongside strong healing capabilities, making it a good healer and a damage dealer with decent survivability in solo fights and PvP battles. It can also cleanse negative effects from their allies. Abilities like Puncturing Sweep deal a
significant amount of damage while healing players for a percentage of the damage done. This can help beginners tremendously in combat. Blazing Spear is an AOE damage-dealing skill that can also be activated by players to regain resources in the battle. This creates a unique synergy between the party members. 3) SorcererSorcerers with their
Daedric summoned familiars (Image via ZeniMax Online Studios)Sorcerers in The Elder Scrolls Online can channel dark magic and summon familiars to fight alongside them. They have many mobility skills that enable a quick escape from danger, making them potent and nimble. Abilities like Boundless Storm can transform players into pure lightning
speedsters, zapping enemies closing in while also providing enhanced defenses and movement speed. Skills used to summon familiars enhance the damage, making Sorcerers one of the easiest classes to play in the game. 4) WardenWardens can call forth swarms of
flies to attack their enemies in battle. (Image via ZeniMax Online Studios)Wardens are the nature-oriented class in The Elder Scrolls Online. They fight alongside their animal companions and boast high burst damage, making them much higher
survivability than many other classes in the game. Skills like Betty Netch provide increased damage while also removing a negative effect from players. All these qualities make the Warden a well-rounded class in the game. 5) Dragonknight Crambine than many other classes in the game. Skills like Betty Netch provide increased damage while also removing a negative effect from players. All these qualities make the Warden a well-rounded class in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game. 5) Dragonknight Crambine than many other classes in the game of the gam
Studios) Dragonknights in The Elder Scrolls Online harness dragon-based abilities based on fire and poison. They are the most reliable tanks in the game and are often preferred for high-end PvE boss battles. Their high survivability also makes them extremely viable in PvP fights. Ultimate abilities like Magma Shell reduce incoming damage to just 3%
of the maximum health of players while also providing massive shields to the other allies in the party. Dragonknights can also debuff enemies with poison-based abilities like Noxious Breath, dealing damage over time and reducing the enemy's resistances. It's safe to say that Dragonknights are one of the best classes for beginners and are essential to
any group in the game. About the author Quick LinksEdited by Rachel Syiemlieh Beginner's Guide to The Elder Scrolls Online (ESO)! If youre new to the game, this guide will help you understand the basics, including choosing the right race for your class, the difference between Magicka and Stamina
builds, and some advice on how to enjoy your first playthrough. This build for The Elder Scrolls Online is very easy to play and has access to amazing heals, defense, and damage! you well all the way from level 1 to level 50 and possibly beyond. This beginner build for the Magicka Warden class in The Elder Scrolls Online is a great place to get started in your journey. This beginner build for the Magicka Warden class in The Elder Scrolls Online is a great place to get started in your journey. This beginner build for the Magicka Warden class in The Elder Scrolls Online is a great place to get started in your journey. This beginner build for the Magicka Warden class in The Elder Scrolls Online is a great place to get started in your journey.
to level 50This beginner build for the Magicka Nightblade class in The Elder Scrolls Online is a great place to get started! This build has
powerful single-target damage and great self-healing! This beginner build for the Stamina Dragonknight class in The Elder Scrolls Online is a great place to get started. This build will do great in PVE and PVP. This beginner build for the Magicka Dragonknight
class in The Elder Scrolls Online is a great place to get started! This build focuses on intense Fire Damage Over Time! This build focuses on Dual Wield and Two-Handed skills and includes lots of Damage Over Time! This
Magicka Sorcerer build for The Elder Scrolls Online is extremely easy to play and offers great damage, defense and self-healing. This build for the Stamina Arcanist class in The Elder Scrolls Online is a great place to get started! This build has amazing damage and survivability making it great for
all players! This beginner build for the Magicka Arcanist class in The Elder Scrolls Online is a great place to get started, with TONS of AOE Damage, Sustain and
Healing!This Magicka Templar build for The Elder Scrolls Online is very easy to play and has access to amazing heals, defense, and damage! This build will do great in both PVE and PVP. Three options for an EASY Stamina Necromancer build for The Elder Scrolls Online!This Magicka Necromancer build for The Elder Scrolls Online has powerful
damage, defensive and healing options and is easy to play! This build will be perfect for any Beginner ESO player looking to start a Necromancer! This werewolf build for The Elder Scrolls Online is fairly easy to get started with and has access to plenty of damage and healing, plus insane speed! This build will do great in both PVE and PVP. The three
recommended classes are Templar, Warden, and Dragonknight because these are more forgiving and less punishing than the other classes, such as Nightblade and Sorcerer. If you are starting a new character and want to get gold fast in ESO, then MmoGah's professional service allows you to become rich and catch up with veterans in no time. Please
click Youtuber Rubensky's video for more details of the top three beginner classes for ESO, and he is the original author of this guide. Templar My No.1 recommendation is the Templar as the class directly starts out with some great abilities. It starts off with a very strong heal, so if you mess up, you can easily heal yourself back up to full health. The
attacks from Aedric Spear like Puncturing Strikes are amazing for single target and AOE. Templars are very versatile, and they can be great tanks, healers, and DPS dealers. Templar is included in the base game. The ultimates are incredibly useful. You can use a healing ultimate, or AOE ultimate that will deal a lot of damage. Both Stamina
and Magicka Templars are great and very forgiving. Warden The abilities from the animal companions line are great, both for single target and AOE damage. The second ability you unlock is an incredibly strong AOE and greatly debuff your enemies. Just like the Templar, the warden starts off with a great heal and can later unlock some amazing AOE
heals. You can also directly unlock frost armor which will grant you Major Ward, greatly increasing your spell and physical resistance. (5.3K) You can have some great ultimates, such as the pet bear who will always follow you around and help you. Wardens are very versatile, they make amazing tanks in both PvP and PvE, and they are also very strong
DPS dealers or Healers. The Dragonknight starts off with the Lava whip, which is a powerful single-target ability. There are ability (Spiked armor) that will grant you Major Ward (increases physical and spell resistance by 5.3K).
Therefore, it is a big increase, which makes you really tanky, especially at a low level. It is a more forgiving class as you can take more damage, so you can take more damage, so you can take more damage, so you can take more forgiving class as you can take more forgiving class as you can take more damage, so you can take more damage, so you can take more forgiving class as you
want, but a Dragonknight will not be able to compete with a good Warden or Templar Healer. The Reason Why I dont recommend the sorcerer, even though it has some
great abilities, because just like the Nightblade, it is less forgiving. You can, of course, have pets and shields, but in PvE and PvP situations, many newcomers dont properly keep the shields up all the time and thus get nuked the moment they dont pay attention, whereas the other three classes are more forgiving. If you need more ESO news and
guides related to ESO gold and ESO items, it will be a good idea to bookmark the ESO news pageon MmoGah, a reliable website to buy MMO items, currency, accounts, and power leveling services. Welcome to my Best Beginner Classes
in ESO is unique with different skills and play style. All of them can fulfill every role with success but they are not the same. Picking an easy Class for the game! Below you can find the Best Class you can use in ESO for every role if you are just starting out! These Classes will help you
understand the role of your choice and the game itself better. For a detailed overview of all playable Classes in ESO you can choose, you can choose the your 
friendly Classes in the game with access to several offensive, defensive and support skills! What makes the Magicka Sorcerer is an easy Class to learn that can become powerful as a damage dealer later in
the game. The more you practice with it, the better will become in almost every aspect of PVE and even PVP gameplay! Some important skills that will help you early in the game include Surge & Morphs, that provides a passive healing when you deal Critical damage, Conjured Ward & Morphs that offer a valuable damage shield and Summon Twilight
Matriarch, one of your Pets that will also be your main active healing ability early in the game. Summon Volatile Familiar, Summon Storm Atronach & Morphs will help you deal good damage! Magicka Sorcerer is a class with several skills that deal Shock damage, so if you like playing with Lightning this
is another reason to pick this Class! Sorcerer Builds & Guides: Dragonknight Tank The Stamina Dragonknight is the Best Beginner Class for the role of Tank in ESO! A sturdy Class with several defensive and support skills. Stamdk can hold aggro easily and crowd control enemies more naturally than every other Class in the game. This along with the
fact that the Class is available with the base game, make Dragonknight the best option for the role of Tank as a beginner. Thanks to skills like Hardened Armor, Fragmented Shield and Green Dragon Blood you can hold aggro and survive with ease. What really makes Dragonknight a great option for this role though, is its Battle Roar passive ability
that allows you to restore resources every time you cast an Ultimate ability. Unrelenting Grip, Burning Talons and Choking Talons and Choking Talons allow you to crowd control enemies while Cauterize offers some extra passive healing! Finally Stone Giant also applies the Stagger debuff to enemies, which increases the damage they take. The Stamina Dragonknight is a
sturdy Class and the best option if you wish to dive into ESO tanking! Dragonknight Builds & Guides: Templar Healer in ESO! Available with the base game with access to many Support and Healing Skills, the Magicka Templar will keep you and your group alive against every
enemy! Magplar has some of the best Heals in the game in the form of Honor the Dead or Breath of Life! Area of Effect skills like Extended Ritual and Ritual of Retribution, provide heals and damage enemies. Like this you can choose if you want to offer more heals or assist with damage. Remembrance is a powerful healing Ultimate that will keep
your group alive if the need arises. Finally Luminous Shards and Blazing Spear offer reliable synergies to your group. The Magicka Templar Builds & Guides: Templar Builds What is the Strongest Class in ESO? The
Strongest Class in ESO is the Stamina Warden at the moment! The Magicka Sorcerer is also quite strong and more beginner friendly. To better understand how Classes work in ESO, you should read this ESO Class Guide! What is the Best Beginner Class for DPS in ESO? The Best Class for Beginners in ESO is the Magicka Sorcerer. One of the most
new player friendly Classes in the game with access to several offensive, defensive and support skills! Arzyel is a passionate Gamer and huge fan of the Elder Scrolls Online with the Best ESO Builds and Guides you can find as well as

Guide for The Elder Scrolls Online! ESO Build for PVE Success!These are the Best 10 Ways you can make Easy Gold in ESO, fast and reliably as a Solo player by simply playing and enjoying the game! The Elder Scrolls Online is an absolutely massive game! So much so, thats extremely easy to get lost, especially as a new player. But dont worry, weve
got you covered! This complete Beginner Guide for ESO will walk you through tons of great Rapid Fire Tips designed to get you into the game and play smart from the start. Here we go! After you complete the initial tutorial for ESO youll get access to three skill points. Now each class in the game also has three unique skill lines, so the best thing to do
right off the bat is to place one skill point into each of those 3 class skill lines. That will let you unlock the first active skill line equally which is also important. Unlocking the first 3 class skills for the Nightblade. Tip number two is
to fast travel to one of the three starter zones right away. These are the zones of Bleakrock Isle, Kenarthis Roost, and Stros M-kai. These islands have some basic quests and easy-to-defeat enemies that will help you get a good feel for the game without getting overwhelmed or confused, plus there are no world bosses or group encounters like Dolmens
or Harrowstorms to beat you down in an instant. I recommend you pick one of these Starter Islands (Kenarthis Roost is my favorite) and complete all the starting quests there. This should get you a few levels under your belt in a relatively safe environment. Each Island represents a different faction, but it doesn't matter which island you choose. So just
find a way Shrine, move your map to one of those three starter locations, fast travel there, and start exploring. Kenarthis Roost is a favorite beginner zone in ESO. Tip number three is to pick up a primary weapon skill. ESO has plenty of weapons skills from Bows to Swords to Staffs. All weapon skills are unlocked by equipping a weapon and then
defeating an enemy with that weapon equipped. So decide which weapon skill you want to focus on first and then unlock the first skill in that skill line by killing off an easy, nearby enemy. Dont worry, you can always level up multiple weapon skills at once which well talk about later. You should notice a big increase in power though once your
character combines both their unique class skills with a weapon skill line. Tip number 4 is to keep a food or drink buff active on your character at all times. Now buffs in ESO are extremely important, but one of the most important and often overlooked buffs for new players is the passive buffs that food or drink consumables can offer. These are
typically long-lasting buffs of at least an hour that you get by eating or drinking a consumable buff item, and these can increase your overall max attributes like health, magicka and stamina, your health, magicka and stamina recovery, or some combination of max stats and recovery. Pro-tip: as a brand new player with limited gear the best consumable
buff is usually drinks because they offer stat recovery instead of just flat stats. The more consistently youl be able to use all of your abilities to defeat enemies quicker. The Crown Fortifying Meal is a great buff to all stats. Tip number 5 is to boost your experience gain, helping you to level up even faster. Now, there are two
or level up rewards. Like I said, either version is fine because they offer the same buff, but try to keep one up as often as possible, especially when you know you are about to kill lots of enemies or turn in a major quest. Crown Experience Scrolls are free buffs given for leveling up or as daily rewards. Make sure to use them! Finally, throughout the year
there are several double XP events that happen. This gives you yet another consumable XP buff, but this one DOES stack with either an XP scroll or potion to maximize your total experience gained while leveling. As you gain experience
in ESO, each active skill line on your character will improve from Level 1 to Level 50. Around every 5-10 skill levels or so you will unlock a new ability from the
same skill line. This way youre constantly improving and progressing your skill line, leveling up each skill one at a time. You also have the option to morph the previous skill once its maxed out as well, but I recommend unlocking the next skill instead to fill out more of your skill line over time. Unlock your next abilities as soon as possible and start
leveling them up instead of the previous ability. This will give you the most build options at End Game. Tip number seven is to unlock your armor skills in the game that correspond to the three different armor types of light, medium, and heavy. Now the type of armor you choose as your main armor is going to depend on
the role that you want your build to play in ESO. Characters that use magic for example will want light armor while characters that use melee weapons or bows want to level up all three armor skill lines because the
passives you can get through each skill line are actually pretty good. To unlock one of the three armor skills in the game all you need to do is equip three pieces of that armor that have the same weight, so three pieces of light, medium, or heavy. Doing so will add that skill line to your list of skills. If youd like to learn more about Armor Types in The
 Elder Scrolls Online, we also have a great Beginner Guide here. Tip number 8 is to explore as many locations as possible and unlock them on your world map. Not only is the world of ESO amazing and beautiful to explore as many locations on your map you get free
experience! Obviously, this is also VERY important when it comes to unlocking Wayshrines as this will give you new locations to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point, and the more options you have the more options to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point, and the more options you have the more options to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point, and the more options you have the more options to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point and the more options you have the more options to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point and the more options to fast travel to any time you want. Tip number 9 is to find as many Skyshards will convert into one skill point and the more options to fast travel to any time you have the more options and the more options to fast travel to any time you have the more options as the fast travel to any time you have the more options and the more options are the
you get to customize your character which is incredibly important. Clues for every Skyshards hidden in each zone or of course there are maps online or PC add-ons that make it even easier. You can track the Skyshards youve already earned in the
achievements menu of your journal. On to tip number 10: unlocking your passive skills. Each skill line in the game or what truly makes your character powerful because they can do things like increase your healing increase your armor or
increase your damage done without you having to press a button so look for the passive abilities that you think will make the most impact on your characters progression and unlock those first. Once you have enough Skill Points, work on unlocking some Passive Skills to make your character even more powerful! Tip number 11 is to begin the main
story for ESO. This Quest can be found in your main faction City and can be started by talking to the hooded figure and the benefactor. Now, Im not going to spoil the quest here but its well worth your time, has a great cast of characters, and a great storyline, and the game just isnt the same without it. You can also start the main story quest at any
level, but I recommend starting it early because it will reward you pretty well with free skill points and extra gear you can actually use to level up more easily. Tip number 12 is to unlock the free starter, then begin the Room To Spare quest. This
will send you off to talk to the Innkeeper in your main faction city and accept a free room. This is actually a Starter House! Why would you want to do this? Well, not only can you use this for basic storage, trophies, and such, but its also always free to fast travel to your home, even when your main faction city and accept a free room. This is actually a Starter House! Why would you want to do this? Well, not only can you use this for basic storage, trophies, and such, but its also always free to fast travel to your home, even when your main faction city and accept a free room.
you can travel to your home base, then step outside to use a nearby Wayshrine to continue traveling anywhere else for free. There are even more possible Free Houses Guide! Pick up the Room To Spare quest (for free!) from the Crown Store to get your first starter home as soon as possible. Tip number 13 ison to check our Free Houses Guide! Pick up the Room To Spare quest (for free!) from the Crown Store to get your first starter home as soon as possible.
to join the three NPC Guilds in the ESO, those being the Fighters Guild, the Mages Guild and the Undaunted Guild. Each Guild has its own series of story quests as well as some pretty good skills and passives so youll want to unlock them early on and luckily unlocking them is extremely easy! Just go to their respective Recruiters in your main faction
town and tell them you want to join. Its that simple! Want to know which guilds are best? We have a Guide for that too! Tip number 14 is to add more weapon skills to your skill bar, but from a different weapon than you are currently using. Now this tip may seem strange at first, especially if youve never played ESO, but basically, the way it works is
that most Skill Lines in the game level up by having at least one skill from that skill line on your active abilities slotted then Im of course leveling up that 2H skill line but if I were to replace one of those two-handed skills with something from another
as myself forget when starting a new character, and thats to add a Mundus Stone. In ESO, Mundus Stones give you stat bonuses in a specific area like resistances, damage or healing. When youre first starting the game any bonus to stats can make a difference, so make sure to pick up one of these free stat bonuses as soon as possible. Most zones in
the base game have at least 3 of them for you to find. Make sure to review our guide for the Best Mundus Stones in ESO are basically mini-dungeons that can be easily completed in just a few enemies and a
pretty easy boss at the end that you can usually defeat by yourself. The reason why you want to find and complete delves is because each one has a Skyshard to grab and you also get bonus experience for defeating the final boss for the first time to finish the Delve and mark it off your map as completed. Completing Delves offers a huge chunk of
experience. Tip number 17 is to upgrade your Riding Skills every day. Now, there are many mounts in the game including a free horse you can get at level 10, but none of these will be faster than your normal Sprinting Speed until you actually train your characters riding ability. There are other riding stats you can train as well including riding Stamina
and Carrying Capacity, but Speed is what I usually recommend doing first. There is a small cost for this as well as a 20-hour timer per upgrade so its important to start training early and be consistent if you want to eventually ride faster, ride longer or have extra carry capacity unlocked for your character. Tip number 18 is to read every bookshelf.
Almost every bookshelf in ESO has a book you can actually give out a free skill increase in a specific skill line just by opening that book. This includes weapons skills, armor skills, class skill lines and even crafting skills. Note too that you don't
have to read the whole book or flip through every page to earn that skill increase. All you have to do is interact with the bookshelf and if a book is tied to a skill increase you should see it pop up immediately. Read every bookshelf and if a book is tied to a skill increase you should see it pop up immediately. Read every bookshelf and if a book is tied to a skill increase you should see it pop up immediately. Read every bookshelf and if a book is tied to a skill increase you should see it pop up immediately. Read every bookshelf and if a book is tied to a skill increase you should see it pop up immediately. Read every bookshelf and if a book is tied to a skill increase you should see it pop up immediately.

PC and consoles below. Tip number 20 is how to reset your skills, morphs, and attributes on your character. This is helpful if you want to respec your build from a tank to a DPS role, a DPS to a healer, or whatever you want to
do!Similarly, there should be another shrine here where you can reset your skill point allocations and morph choices. Chances are you will want to do this at least a few times especially if youre brand new to the game. Keep in mind each change does require a gold cost. For clarity, make sure to read our guides on How To Reset Skills and How To
 Reset Attributes. Joining a player guild in The Elder Scrolls Online is much easier now than it used to be in the past. Now you can browse and sort guilds by activity type including things trading, trials guilds or PVP as well as by Play Style, so you can
browse more casual or hardcore style guilds. To apply, just click on a guild that you like and use the built-in application feature. Obviously guilds are great for the social element of grouping up with others. You can always fast travel to any of you
other online guildmates for free by browsing the roster and then choosing travel to player. ESOs Guild Finder Tool is an extremely easy option for getting connected to just the right guild for you. Most major towns in The Elder Scrolls Online include a Bag Merchant. This vendor can sell you bag space upgrades, letting you carry more items on your
character. The first few upgrades are the cheapest, while subsequent upgrades will continue to get more and more expensive. Once you reach level 10 you will be invited to join the Alliance War taking place in Cyrodiil. This is a PVP-only zone, and I dont actually recommend you try fighting other players quite yet because it will be quite a challenge to
face other fully-leveled players. However, the initial Alliance War quests are easy enough to do and dont require any combat, plus theyll give you free experience and skill points for completing! Public Dungeons are a step up from Delves in The Elder Scrolls Online in terms of difficulty but can offer even greater rewards! Public Dungeons are some of
my favorite XP Grinding locations because they have so many more enemies and those enemies are the properties and those enemies and those enemies are the properties a
group with you. You may be able to defeat them anyway! Online can do every kind of content the game has to offer, however, the three classes presented in this guide are the best option for new players due to their ease of play. These classes have strong offensive and defensive skills, and their abilities frequently give you more than one bonus for casting them, helping you to do more with fewer
abilities. These are the best classes in order of strength and simplicity for new players getting started in The Elder Scrolls Online. Sorcerer Templar Dragonknight at any level and can be used to play solo or in a group in multiple different playstyles including stamina-based builds and magicka-based builds, in PVE
or PVP. So if youre looking for a strong class thats also flexible and easy to play then keep reading. Build options for each will be presented throughout the article as well. The Dragonknight class is ESOs version of a Berserker or Warrior archetype and while they have seen some recent nerfs, particularly in sustain, they are still extremely powerful,
and very versatile, being able to step into most roles easily in both PVE and PVP content and beyond that they are just a lot of fun to play. So if you want a brawler, in your face playstyle that mimics the powerful attacks, buffs and debuffs of dragons in The Elder Scrolls Online then this is the perfect class for you. Dragonknights are masters of Fire,
Earth and Poison, First, lets dive into a few Dragonknight skills and show you exactly why this class is so great for beginners. Now healing is one of the best aspects of the Dragonknight class in my opinion and a great compliment to any style of build you want to play in both PVE and PVP content. For this, youll want to unlock the Ardent Flame skills and show you exactly why this class is so great for beginners.
called Burning Embers as soon as possible. This skill provides a fantastic heal overtime effect while also doing damage over time. In fact, the more damage this skill from this same skill line and morph it to Cauterize which is another
powerful self and group heal. Early on youll also want to unlock the Coagulating Blood morph from the Draconic Power skill line as this can also provide a clutch burst heal which is important to have especially if you are playing solo without a healer in either PVP or PVE. This skill actually heals you for more based on your missing health which makes
it even better as an emergency heal. Moving on from healing, another thing thats amazing on the Dragonknight is their damage. Specifically, DKs have some of the most powerful damage over time (DOT) skills in the game. We already mentioned Burning Embers previously which is a massive single target DOT combined with that passive healing but
youll also want to pick up a morph of the Fiery Breath skill next for an AOE damage over time. My preference here is usually to pick up the Noxious Breath morph. This option provides the Major Breach debuff which makes enemies take more damage from your attacks and since I usually play solo this is going to be important to increase my overall
DPS.Dragonknights also have powerful and unique ultimates, and youre going to want to start unlocking all 3 of these as soon as possible. For PVE players definitely go with Standard Of Might first as this is gives a big boost to your overall damage reduction. For PVE players I recommend going with the either morph of the Dragon Leap
ultimate for a brutal gap closer combined with big damage and a stun which is great for setting up kill combos on your enemies. Finally, Corrosive Armor is a favorite choice for getting more defensive while also doing increased damage in more mobile situations compared to standard of might. All in all this class is extremely flexible and powerful no
matter how play and makes a great choice for a beginner starting out brand new in the elder scrolls online.RECOMMENDED SKILLSSKILL LINEROLEBurning EmbersArdent FlameDPSUnrelenting GripArdent FlameDPSUnrelenting GripAr

groups damage output, while still being the sturdiest thing on the battlefield. Emerge from the molten forge, dragon-scaled warrior! This Powerful Magicka Dragonknight Healer Build is a fantastic help to both dungeon and trials groups, granting tons of bonus protection and healing for the entire team! The Templar is ESOs version of a Cleric or
Paladin class with an emphasis on the power of the sun, healing and defensive abilities. Like the Dragonknight, the Templars strong ability to self heal or heal a party as well as strong defensive buffs mean you can do pretty much anything you want in The Elder Scrolls Online whether you want to play Solo or run group Content PVE or PVP the
Templar class can literally do it all. What makes the Templar a better choice for beginners on our list is again that high concentration of defensive and healing abilities combined with strong passives. Since I mentioned passives lets actually start there. Templars main spammable skill, either Biting Jabs or Puncturing Sweep is not only a strong damage
skill, but it also grants multiple passive bonuses for using it including the spear wall passive for free bonus damage. Using that Puncturing Sweep skill, Templars can easily play as a one-bar or even one-button build fairly effectively but I do recommend mixing in some additional damage skills and
DOTS to improve your build. Some of my favorite skills for this include Solar Barrage for AOE damage, and of course the Radiant Glory execute skill. Purifying Light or Power Of The Light are also staple skills if you are more interested in PVP as these can provide massive burst damage potential in
combination with your other damaging skills. All of these skills come from the Dawns Wrath skill line so make sure you dont neglect this one. Level up each skill and then pick whats best for your build. Magicka Templars strong healing and defensive capabilities makes them a great option for new players Finally, lets talk about the healing and
defensive capabilities of the Templar which make it such a strong choice for beginner builds. These come primarily from the Breath Of Life and Honor the Dead skill, which is an amazing heal and sustain tool for Stamina Templar builds. Finally you have
Channeled Focus and Restoring Focus which grant you armor, healing and bonus sustain in a single ability. So as you can see, we have just tons and tons of amazing build options with the Templar class. Some of my favorites are of course the Stamina Templar which is a great PVE DPS option but also an incredibly fun and powerful PVP class. If you
want a Magicka build, of course Templars make fantastic healers all the way from level one when you unlock rushed ceremony. So throw on some Magicka gear, grab your heals and you also have a great group build.RECOMMENDED SKILLSSKILL LINEROLEBiting JabsAedric SpearStaminaPuncturing SweepAedric SpearMagickaBlazing SpearAedric

Magicka Templar Build focused on Big Heavy Attack damage! This Templar Tank build for The Elder Scrolls Online does a fantastic job of debuffing enemies with Major Vulnerability AND Major Maim, plus provides plenty of options for sustain and healing! This powerful Magicka Templar healer focuses on providing resources, great group buffs and
massive raw healing! This build can easily keep up with healing in the most difficult content including Veteran Trials and Dungeons! This beginner build for the Stamina Templar class in The Elder Scrolls Online is
very easy to play and has access to amazing heals, defense, and damage! This build will do great in both PVE and PVP.Looking for a powerful Subclassing Build for The Elder Scrolls Online? The Golden Saint casts powerful Holy and Fire-based magic combined with Melee Weapons for a truly unique playstyle! This is a members only build. Finally, our
number one class for Beginners in ESO is here and thats the Sorcerer Class! Sorcerers have some of the most powerful skills and passives in the game but what really separates them from other classes in ESO is the how most of these skills give you either automatic damage or automatic healing. Let me explain. First, lets talk about the Daedric
Summoning skill line which is all about summoning Daedric pets to do damage for you. These pets are unique in that your backup skill bar and your backup skill bar, but the tradeoff for this is that your backup skill bar, but the tradeoff for this is always there for you and never needs to be re-summoned as long as they stay alive. This means as soon
as you enter combat your pets are already doing damage for you without you having to press a button. Of course, your pets also have additional special effects that you can use such as the stun from Volatile Familiar and a massive group heal from Twilight Matriarch which makes them even more powerful. A Magicka Sorcerer Pet Build using Volatile
Familiar and Twilight MatriarchAnother strength of the Sorcerer class is their speed and mobility that comes from the Storm Galling skill line. For Stamina Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerer builds, t
apply Major Resolve which provides about 6000 armor. And dont forget Streak! This skill can be used by both Magicka and Stamina Sorcerers to get out of trouble or guickly stun enemies and is a great skill for PVP. Speaking of PVP. if you are interested in that playstyle then a Magicka or Stamina Sorcerer is going to be a great choice because of the
previously mentioned mobility and strong self healing from Critical Surge. This skill heals you every second as long as you are doing critical damage to a target. In terms of builds, as Ive said both Magicka and Stamina Sorcerer offer great build options for getting started in PVP, but if you want the ultimate easy, beginner build for PVE content then
definitely check out a Magicka Sorcerer pet focused build for a really easy time completing most content in the game. RECOMMENDED SKILLSSKILL LINEROLECrystal WeaponDark MagicDPSCrystal WeaponDark MagicDPSCrysta

What makes the Templar a better choice for beginners on our list is again that high concentration of defensive and healing abilities combined with strong passives. Since I mentioned passives lets actually start there. Templars main spammable skill, either Biting Jabs or Puncturing Sweep is not only a strong damage skill, but it also grants multiple passive bonuses for using it including the spear wall passive for free bonus damage. Using that Puncturing Sweep skill, Templars can easily play as a one-bar or even one-button build fairly effectively but I do recommend mixing in some additional damage skills and DOTS to improve your build. Some of my favorite skills for this include Solar Barrage for AOE damage, Vampires Bane for single target damage, and of course the Radiant Glory execute skill. Purifying Light or Power Of The Light are also staple skills if you are more interested in PVP as these can provide massive burst damage potential in combination with your other damaging skills. All of these skills come from the Dawns Wrath skill line so make sure you dont neglect this one. Level up each skill and then pick whats best for your build. Magicka Templars strong healing and defensive capabilities of the Templar which make it such a strong choice for beginner builds. These come primarily from the Breath Of Life and Honor the Dead skill, which is an amazing heal and sustain tool for Stamina Templar builds. Finally you have Channeled Focus and Restoring Focus which grant you armor, healing and bonus sustain in a single ability. So as you can see, we have just tons and tons of amazing build options with the Templar class. Some of my favorites are of course the Stamina Templar which is a great PVE DPS option but also an incredibly fun and powerful PVP class. If you want a Magicka build, of course Templars make fantastic healers all the way from level one when you unlock rushed ceremony. So throw on some Magicka gear, grab your heals and you also have a great group build.RECOMMENDED SKILLSSKILL LINEROLEBiting JabsAedric SpearStaminaPuncturing SweepAedric SpearAedric SpearAed WrathDPSPurifying LightDawns WrathDPSRadiant GloryDawns WrathDPSRadiant Glo Attack damage! This Templar Tank build for The Elder Scrolls Online does a fantastic job of debuffing enemies with Major Vulnerability AND Major Maim, plus provides plenty of options for sustain and healing! The Golden Saint casts powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Subclassing Build for The Elder Scrolls Online? The Golden Saint casts powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Melee Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a powerful Holy and Fire-based magic combined with Meleo Weapons for a power here and thats the Sorcerer Class! Sorcerers have some of the most powerful skills and passives in the game but what really separates them from other classes in ESO is the how most of these skills give you either automatic damage or automatic healing. Let me explain. First, lets talk about the Daedric Summoning skill line which is all about summoning Daedric pets to do damage for you. These pets are unique in that you have to keep the skill slotted on both your main skill bar, but the tradeoff for this is that your pet is always there for you and never needs to be re-summoned as long as they stay alive. This means as soon as you enter combat your pets are already doing damage for you without you having to press a button. Of course, your pets also have additional special effects that you can use such as the stun from Volatile Familiar and a massive group heal from Twilight Matriarch which makes them even more powerful. A Magicka Sorcerer Pet Build using Volatile Familiar and Twilight MatriarchAnother strength of the Sorcerer class is their speed and mobility that comes from the Storm Calling skill line. For Stamina Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerers, Boundless Storm gives them a short burst of Major Expedition for even greater speed, and both skills apply Major Resolve which provides about 6000 armor. And dont forget Streak! This skill can be used by both Magicka and Stamina Sorcerers to get out of trouble or quickly stun enemies and is a great skill for PVP. Speaking of PVP, if you are interested in that playstyle then a Magicka or Stamina Sorcerer is going to be a great choice because of the previously mentioned mobility and strong self healing from Critical Surge. This skill heals you every second as long as you are doing critical damage to a target. In terms of builds, as Ive said both Magicka and Stamina Sorcerer offer great build options for getting started in PVP, but if you want the ultimate easy, beginner build for PVE content then definitely check out a Magicka Sorcerer pet focused build for a really easy time completing most content in the game.RECOMMENDED SKILLSSKILL LINEROLECrystal FragmentsDark MagicDPSCrystal WeaponDark MagicDPS Summoning Magicka Bound Armaments Daedric Summoning DPS Boundless Storm Storm Calling Magicka Hurricane Storm Calling Magicka Forcerer Pet-focused build for The Elder Scrolls Online is very easy to play and has access to amazing heals, defense, and damage! If youre not sure which Alliance to pick or you need help changing your Alliance to pick or you need help changing your Alliance to pick or you. offer, however, the three classes presented in this guide are the best option for new players due to their ease of play. These classes have strong offensive and defensive skills, and their abilities. These are the best classes in order of strength and simplicity for new players getting started in The Elder Scrolls Online. Sorcerer Templar Dragonknight These options are all extremely powerful at any level and can be used to play solo or in a group in multiple different playstyles including stamina-based builds and magicka-based builds, in PVE or PVP. So if your elooking for a strong class thats also flexible and easy to play then keep reading. Build options for each will be presented throughout the article as well. The Dragonknight class is ESOs version of a Berserker or Warrior archetype and while they have seen some recent nerfs, particularly in sustain, they are still extremely powerful, and very versatile, being able to step into most roles easily in both PVE and PVP content and beyond that they are just a lot of fun to play. So if you want a brawler, in your face playstyle that mimics the perfect class for you. Dragonknights are masters of Fire, Earth and Poison. First, lets dive into a few Dragonknight skills and show you exactly why this class is so great for beginners. Now healing is one of the best aspects of the Dragonknight class in my opinion and a great compliment to any style of build you want to play in both PVE and PVP content. For this, youll want to unlock the Ardent Flame skill called Burning Embers as soon as possible. This skill provides a fantastic heal overtime effect while also doing damage over time. In fact, the more damage this skill does the more healing you get back which means it grows with you. Later on you can also invest in the Inferno skill from this same skill line and morph it to Cauterize which is another powerful self and group heal. Early on youll also want to unlock the more damage this skill does the more damage this skill doe Coagulating Blood morph from the Draconic Power skill line as this can also provide a clutch burst heal which is important to have especially if you are playing solo without a healer in either PVP or PVE. This skill actually heals you for more based on your missing health which makes it even better as an emergency heal. Moving on from healing. another thing thats amazing on the Dragonknight is their damage. Specifically, DKs have some of the most powerful damage over time (DOT) skills in the game. We already mentioned Burning Embers previously which is a massive single target DOT combined with that passive healing but youll also want to pick up a morph of the Fiery Breath skill next for an AOE damage over time. My preference here is usually to pick up the Noxious Breath morph. This option provides the Major Breach debuff which makes enemies take more damage from your attacks and since I usually play solo this is going to be important to increase my overall DPS. Dragonknights also have powerful and unique ultimates and youre going to want to start unlocking all 3 of these as soon as possible. For PVE players I recommend going with the either morph of the Dragon Leap ultimate for a brutal gap closer combined with big damage and a stun which is great for setting up kill combos on your enemies. Finally, Corrosive Armor is a favorite choice for getting more defensive while also doing increased damage in more mobile situations compared to standard of might. All in all this class is extremely flexible and powerful no matter how play and makes a great choice for a beginner starting out brand new in the elder scrolls online.RECOMMENDED SKILLSSKILL LINEROLEBurning EmbersArdent FlameAnyNoxious BreathArdent FlameAnyFlame LashArdent FlameAnyFlame LashArde PowerAnyMolten ArmamentsEarthen HeartAnyFossilizeEarthen HeartPVPCinder StormEarthen HeartPVPCinder StormEarthen HeartHealerThis powerful One Bar Dragonknight Tank build for the Elder Scrolls Online excels at debuffing enemies and increasing your groups damage output, and thanks to the Oakensoul Ring, with an easy one bar playstyle!Solo Stamina Dragonknight PVE Build Tough-as-nails, Heavy Attack Warrior ONE BAR and TWO BAR versions. If youre not sure which Alliance to pick or you need help changing your Alliance then this guide is perfect for you! Elder Scrolls Online is a multiplayer online RPG that is played by millions of players throughout the whole world. Besides already established fans of previous Elder Scrolls games, there are a lot of new ones that come to try it out. However, one of the biggest problems every new player faces is definitely what character should they start playing at the beginning of their journey. For this article, we decided to bring you our Elder Scrolls Online beginners guide, and try to advise you on what should you do at the start of your journey into Tamriel. Before we start, we will first establish which characters exist in the ESO game, and then offer our advice on which builds you should use, but that we will leave for later. We can start now! Editors Note: This guide has been updated to reflect the current state of the game. This is still the recommended guide for new players joining the community. As we already mentioned, picking a class before starting a game is pretty hard, especially if this is the first time you are playing this kind of game. You need to read bios, potential builds, and characters skill kits but most importantly, you need to think about what would you like to do in the game. This last question is the first one you should answer for your teammates. Do you like going insane and charging through the enemies and yelling chargeeeee? Pick a tanky character. When you answer that question, definitely go and check out YouTube videos or articles (like this one) and perspectives of players who were also in your place before starting playing ESO. When you realize your preferences, you managed to solve 90 percent of your dilemmas. After that, definitely read up on your own about the classes and you are ready to start. Elder Scrolls Online has different lore-friendly classes that you must choose to begin the customization of your character has lore attached to their background and before you pick someone, you can read their biography. There are six of them, and further in the article, we will list them all. These are available ESO characters: First, we will start with a class called Dragonknight. This class is masters-at-arms, which means they are brawlers but with some magic capabilities. There are three specific class skills you can choose for Dragonknight: Ardent Flame this skill set is good if you want to stun your opponents and deal damage over time. Draconic Power if you want to deal damage and immobilize surrounding enemies, definitely check out this skill. It also provides tankyness if you prefer the juggernaut type of build. Earthen Heart players choose this one to deflect damage, debuffs, and immobilization of the enemies. The tankiest build path in this class. After that, we have a Sorcerer. This one is the opposite of Dragonknight. Like in most games, Sorcerers are usually used for dealing high amounts of damage or giving support to their teammates. They can summon animals. They also have three specific skills you can choose: Daedric Summoning this skill provides damage per second and crowd control. Sorcerers damage, interrupt and stun enemies with their pets. Dark Magic if you go this build path, you will get a support type of character, this character removes enemies effects and provides ally health and magicka, buffs that enhance teammates skills. It can also stun and knock out enemies. Storm Calling this is a damage per second line with the area of effects skills. Nightblade is a class more suited for stealth-type gaming which can be used for surprise attacks. These are specific skills you have available for this class: Assassination as the name says, your character becomes a real assassin with abilities like high damage, anti-heal (reduce of enemies healing), and an ability to teleport and deal a critical strike to the opponents. Shadow this skill gives you the ability to damage enemies in the area, as well as blinding them, fearing them, and snaring them. Siphoning build path that provides your teammates buffs and healing with your character dealing damage over time. Templar is the next class on the list and it provides a player defensive stats. Skills that are available for Templar are: Aedric Spear this one is a menace; it provides you the ability to damage enemies over time and you can interrupt and stun enemies. Dawns Wrath as the name of the skill says, you will damage enemies with your fire strikes and provide debuffs and buffs for your teammates Attacking Support line. Restoring Light a true support line with your character being really tanky and providing healing to your teammates. Usually relies on passive skills. Warden is the next one and is similar to the Templar class. This is a natural type of class that provides you with different natural skills that depend on what skill you pick. A class that can acquire an animal companion. Skills that are available for Warden are: Winters embrace if you pick ice, you will be able to slow the movements of your enemies and deal damage over time. Green Balance as the name suggests, green means life and with balance, this skill makes your character great support. Animal Companions you can summon different animals to attack enemies, every animal brings different types of damage. Well, we know what this character can do Necromancer is using death magic and is focused on reanimation. These are the skills available: Grave Lord (Elementalist) your Necromancer is using death magic and is focused on reanimation. These are the skills available: Grave Lord (Elementalist) your Necromancer is using death magic and is focused on reanimation. enemies. Bone Tyrant (Bone Armor) when you summon dead you can break them and make shields and barriers with the bonus of extending your life. Living Dead (Soul Mending) you can reanimate fallen teammates and restore their health. True support of this class. After playing and watching other streamers take on all Elder Scrolls Online characters, the answer to this question is Templar. Without a doubt the easiest class to play for beginners. Templar is truly the master of efficiency that uses Puncturing Sweeps to damage the enemies. With the right gear that gives you buffs like cooldown reduction, you can use Templars abilities repeatedly and slay your enemies. Do not get us wrong just because these abilities are used repeatedly in a short period of time, it doesn't mean that the Templars abilities are weak. They are really strong, and this is another reason why Templar is great for not just beginners but also experienced players. To be fair, tanks in these kinds of games are always a great starting point for any beginner player. They are easy to learn and you can master the abilities of Templar itself, and learn how the skillsets of other characters work. All in all, we recommend taking Templar as your starting characters to learn other characters work. All in all, we recommend taking Templar as your starting characters work. All in all, we recommend taking Templar as your starting character for the start of Elder Scrolls Online is Sorcerer. Even though it seems like this character can be pretty tough to learn it truly isnt. Most of the Sorcerers skills are really straightforward if you think about it because you can just move around the area and throw your abilities at opponents. As we said earlier, Wardens are not the only class that can summon animals, Sorcerers, specifically, if you go Daedric Summoning build path. You can have two pets that follow you all the time and add another one with the Ultimate ability. The animals also have passive skills that are really important to Sorcerer and buffs it tremendously. Another great starter class that should be considered. The rest of the classes are not nuclear physics if you learn the game while playing your starter classes, you will easily master other characters as well. Again, it all depends on what you value and your preferences. When it comes to items, maybe we do a guide for the next article, but until then, enjoy Games tab located on our Home page. Most classes in The Elder Scrolls Online can do every kind of content the game has to offer, however, the three classes presented in this guide are the best option for new players due to their ease of play. These classes have strong offensive and defensive skills, and their abilities frequently give you more than one bonus for casting them, helping you to do more with fewer abilities. These are the best classes in order of strength and simplicity for new players getting started in The Elder Scrolls Online. Sorcerer Templar Dragonknight These options are all extremely powerful at any level and can be used to play solo or in a group in multiple different playstyles including stamina-based builds and magicka-based builds, in PVE or PVP. So if youre looking for a strong class thats also flexible and easy to play then keep reading. Build options for each will be presented throughout the article as well. The Dragonknight class is ESOs version of a Berserker or Warrior archetype and while they have seen some recent nerfs, particularly in sustain, they are still extremely powerful, and very versatile, being able to step into most roles easily in both PVE and PVP content and beyond that they are just a lot of fun to play. So if you want a brawler, in your face playstyle that mimics the powerful attacks, buffs and debuffs of dragons in The Elder Scrolls Online then this is the perfect class for you. Dragonknights are masters of Fire, Earth and Poison. First, lets dive into a few Dragonknight skills and show you exactly why this class is so great for beginners. Now healing is one of the best aspects of the Dragonknight class in my opinion and a great compliment to any style of build you want to play in both PVE and PVP content. For this, youll want to unlock the Ardent Flame skill called Burning Embers as soon as possible. This skill does the more healing you get back which means it grows with you. Later on you can also invest in the Inferno skill from this same skill line and morph it to Cauterize which is another powerful self and group heal. Early on youll also want to unlock the Coagulating Blood morph from the Draconic Power skill line as this can also provide a clutch burst heal which is important to have especially if you are playing solo without a healer in either PVP or PVE. This skill actually heals you for more based on your missing health which makes it even better as an emergency heal. Moving on from healing, another thing thats amazing on the Dragonknight is their damage. Specifically, DKs have some of the most powerful damage over time (DOT) skills in the game. We already mentioned Burning Embers previously which is a massive single target DOT combined with that passive healing but youll also want to pick up a morph of the Fiery Breath skill next for an AOE damage over time. My preference here is usually to pick up the Noxious Breath skill next for an AOE damage over time. My preference here is usually to pick up the Noxious Breath skill next for an AOE damage over time. attacks and since I usually play solo this is going to be important to increase my overall DPS. Dragonknights also have powerful and unique ultimates, and your egoing to want to start unlocking all 3 of these as soon as possible. For PVE players definitely go with Standard Of Might first as this is gives a big boost to your overall damage and damage reduction. For PVP players I recommend going with the either morph of the Dragon Leap ultimate for a brutal gap closer combined with big damage and a stun which is great for setting up kill combos on your enemies. Finally, Corrosive Armor is a favorite choice for getting more defensive while also doing increased damage in more mobile situations. compared to standard of might. All in all this class is extremely flexible and powerful no matter how play and makes a great choice for a beginner starting out brand new in the elder scrolls online. Solo Stamina Dragonknight PVE Build Tough-as-nails, Heavy Attack Warrior ONE BAR and TWO BAR versions. This beginner build for the Stamina Dragonknight class in The Elder Scrolls Online is a great place to get started. This build focuses on Dual Wield and Bow skills and includes lots of Damage Over Time! This build will do great in PVE and PVP. This beginner build for the Magicka Dragonknight class in The Elder Scrolls Online is a great place to get started! This build focuses on intense Fire Damage and Damage Over Time! This powerful Dragonknight Tank build for the Elder Scrolls Online focuses on debuffing enemies and increasing your groups, dragon-scaled warrior! This Powerful Magicka Dragonknight Healer Build is a fantastic help to both dungeon and trials groups, granting tons of bonus protection and healing for the entire team! The Templar is ESOs version of a Cleric or Paladin class with an emphasis on the power of the sun, healing and defensive abilities. Like the Dragonknight, the Templars strong ability to self heal or heal a party as well as strong defensive buffs mean you can do pretty much anything you want in The Elder Scrolls Online whether you want to play Solo or run group Content PVE or PVP the Templar class can literally do it all. What makes the Templar a better choice for beginners on our list is again that high concentration of defensive and healing abilities combined with strong passives. Since I mentioned passives lets actually start there. Templars main spammable skill, either Biting Jabs or Puncturing Sweep is not only a strong damage skill, but it also grants multiple passive for free major protection and the burning light passive for free major build fairly effectively but I do recommend mixing in some additional damage, Vampires Bane for single target damage, and of course the Radiant Glory execute skill. Purifying Light or Power Of The Light are also staple skills if you are more interested in PVP as these can provide massive burst damage potential in combination with your other damaging skills. All of these skill and then pick whats best for your build. Magicka Templars strong healing and defensive capabilities makes them a great option for new playersFinally, lets talk about the healing and defensive capabilities of the Templar which is an the game. You also have Repentance which is an amazing heal and sustain tool for Stamina Templar builds. Finally you have Channeled Focus and Restoring Focus which grant you armor, healing and bonus sustain in a single ability. So as you can see, we have just tons and tons of amazing build options with the Templar class. Some of my favorites are of course the Stamina Templar which is a great PVE DPS option but also an incredibly fun and powerful PVP class. If you want a Magicka build, of course Templars make fantastic healers all the way from level one when you unlock rushed ceremony. So throw on some Magicka build, of course Templars make fantastic healers all the way from level one when you unlock rushed ceremony. So throw on some Magicka gear, grab your heals and you also have a great group build.RECOMMENDED SKILLSSKILL LINEROLEBiting JabsAedric SpearStaminaPuncturing SweepAedric SpearMagickaBlazing SpearAedric SpearHealer/DPSPower Of The LightDawns WrathDPSPurifying LightDawns WrathDPSPadiant GloryDawns WrathDPSPadiant GloryDawns WrathDPSPower Of The LightDawns WrathDPSPadiant GloryDawns WrathDPSPadiant LightMagickaRestoring FocusRestoring FocusRestoring LightStaminaThe AURORA Build is the EASIEST Magicka Templar Build focused on Big Heavy Attack damage! This Templar Tank build for The Elder Scrolls Online does a fantastic job of debuffing enemies with Major Vulnerability AND Major Maim, plus provides plenty of options for sustain and healing! This powerful Magicka Templar healer focuses on providing resources, great group buffs and massive raw healing! This build can easily keep up with healing in the most difficult content including Veteran Trials and Dungeons! This beginner build for the Stamina Templar class in The Elder Scrolls Online is a great place to get started, with TONS of AOE Damage, Sustain and Healing! This Magicka Templar build for The Elder Scrolls Online? The Golden Saint casts powerful Holy and Fire-based magic combined with Melee Weapons for a truly unique playstyle! This is a members only build. Finally, our number one class for Beginners in ESO is here and thats the Sorcerer Class! Sorcerers have some of the most powerful skills and passives in the game but what really separates them from other classes in ESO is the how most of these skills give you either automatic damage or automatic healing. Let me explain. First, lets talk about the Daedric Summoning skill line which is all about summoning backup skill bar, but the tradeoff for this is that your pet is always there for you and never needs to be re-summoned as long as they stay alive. This means as soon as you enter combat your pets are already doing damage for you without you having to press a button. Of course, your pets also have additional special effects that you can use such as the stun from Volatile Familiar and a massive group heal from Twilight Matriarch which makes them even more powerful. A Magicka Sorcerer Pet Build using Volatile Familiar and Twilight MatriarchAnother strength of the Sorcerer builds, the Hurricane skill applies Minor Expedition and for Magicka Sorcerers, Boundless Storm gives them a short burst of Major Expedition for even greater speed, and both skills apply Major Resolve which provides about 6000 armor. And dont forget Streak! This skill for PVP. Speaking of PVP, if you are interested in that playstyle then a Magicka or Stamina Sorcerer is going to be a great choice because of the previously mentioned mobility and strong self healing from Critical Surge. This skill heals you every second as long as you are doing critical damage to a target. In terms of builds, as Ive said both Magicka and Stamina Sorcerer offer great build options for getting started in PVP, but if you want the ultimate easy, beginner build for PVE content then definitely check out a MagicDPSCrystal WeaponDark MagicDPSSummon Volatile FamiliarDaedric SummoningMagickaSummon Twilight MatriarchDaedric SummoningHealerHardened WardDaedric SummoningMagickaHurricaneStorm CallingStaminaCritical SurgeStorm CallingAllThis Magikca Sorcerer Pet-focused build for The Elder Scrolls Online is very easy to play and has access to amazing heals, defense, and damage! This build will do great in both PVE and POWERFUL Magicka Sorcerer Build for The Elder Scrolls Online! Massive Heavy Attack damage as well as great survivability and self-healing make this set up great for solo and group PVE content! This POWERFUL Stamina Sorcerer class build in The Elder Scrolls Online is a great place to get started for beginners. This build focuses on Dual Wield and Two-Handed skills and includes lots of Damage Over Time! This Magicka Sorcerer build for The Elder Scrolls Online is extremely easy to play and offers great damage, defense and self-healing. This build is perfect for any beginner to ESO!
