This release brings bug fixes that improve our product to help you discover new places and navigate to them. My just-turned 2 year old was diagnosed with Type 1 diabetes six months ago. The admission to the hospital and stay was a traumatic experience for him, especially with putting an IV in and continuous blood draws (took them at least 5 times and sedation to get it in at All Children's) With the life-long diagnosis, we will need continuous labs and blood draws. This was our first set of blood draw labs prescribed after diagnosis outside of the hospital setting and I was terrified. My baby has been through so much in the past six months and with the stress of doctors and needles, I knew bringing him to QUEST for the blood draw would be a nightmare. A friend recommended Fast Draw Express and they were truly a gift from heaven!! They came to our house, where my son was most comfortable, were great with strategies to keep him calm, and that needle went in quick and painless as can be. He needed like 6 or more vials drawn and he barely whimpered with the needle insert and immediately stopped crying and was calm and fine while the vials were filled. This is an EXCEPTIONAL service with EXCEPTIONAL service. I will use it over and over any time he needs blood drawn. If you have Littles, with similar stressors or experiences or just Littles in general or anyone any age who doesn't like blood draws... I recommend Fast Draw Express a million times, no hesitation. You will not regret it. Thank you Fast Draw Express for taking a weight off my chest!!!! I am so grateful! I have been sitting on this review for a week partially because I was so overwhelmed by the experience and partially because capturing my experience with Cody Calhoun goes beyond words. My home is fourteen years old and everything that can fall apart has been, getting a new garage door was not in the plans. When Cody Calhoun came to look at my garage door last Saturday he was professional kind and informative but once he gave me an estimate it was more than I could do and feeling defeated I let him know that I couldn't make it happen. Cody could have said goodbye, could have walked away leaving me with an open and broken garage door, but he didn't. He stood in my garage after I said goodbye and allowed compassion to lead the way. He didn't look for the sale as much as he did the solution and a desire to make a difference and because of his heart choice I have a beautiful new garage coming and one less worry to carry. Cody also called another technician to help him close my garage door so our home would be safe until a new garage door could be put in. Everyone with A1 Garage was professional and kind and communicated in a timely basis and I have shared my experience verbally a few times since last Saturday.I can't thank Cody enough for showing up not only to do his job which he is extremely good at, but to make a difference. I had a great experience renting the trailer I needed to purchase and relocate a golf cart from Lancaster, PA down to Somers Point, NJ. I chose this location because the staff here were very helpful 7 years earlier and I was hoping for a similar experience. Things couldn't have gone better. I stopped by Wednesday to explain my needs and the associate there made my reservation for the trailer I'd need for a Thursday night pickup to be used and returned Friday night. When I arrived Thursday night Bruce got me papered up and made sure I had everything I needed to be on my way. He even worked with me to adjust a different ball onto the hitch as the initial hookup rode a little low. It was a busy night and he was able to accommodate several other customers and did a great job getting all of us squared away. The equipment worked great! I was able to make the run Friday morning and move the cart down to the shore and return by closing. Bruce was there again and helped me get checked back in (in pouring rain) all the while with a pleasant demeanor. I'd highly recommend this Uhaul location. Very accommodating and professional assistance along with quality equipment. The developer, Google, indicated that the app's privacy practices may include handling of data as described below.
