Additional people are \$3 each and while hand luggage is free, suitcases are .75 cents each. A 15% tip is customary. If you are more than two people, getting your own taxi makes more sense, and you avoid the extra stop along the way and have the vehicle to yourselves without waiting for additional passengers to show up to fill the bus before it leaves the airport. Personally, I would opt for the taxi, as it would be less hassle and about the same costs (for two). Depending on traffic (which downtown Nasau is notorious for), it will take anywhere from 30 - 45 minutes.2.Re: airport shuttle from nassau airport to riu palace 13 years ago The regular taxi rate from the airport to the RIU is \$32 + \$1 bridge toll for 2 people.
