Our Trustpilot page has 7,000+ comments to look through, this is just one of them: When applying for a Schengen Visa, whether for tourism, business, or study, you will typically need to provide a travel itinerary and flight reservation as part of your application. This is one of the essential documents that demonstrate your travel plans
and help the Schengen embassy or consulate determine your entry and exit dates. What Is a Flight Itinerary for a visa application is not the same as a real flight ticket, where you pay upfront without knowing if your Schengen Visa will be approved. Instead, its simply a document that outlines the details of your planned
travel to the Schengen Area. It includes essential information such as the flight name, a valid reservation number or booking ID, the arrival and departure dates, airport IATA codes, and sometimes the price of the actual ticket. Why Is It Required? A flight itinerary or flight reservation is usually required by embassies/consulates to verify your
travel dates and confirm that you will leave the Schengen Area once your visa expires. The consulate may ask for this document before approving your visa application. Absolutely not. The Embassy or Consulate may ask for this document before approving your visa expires.

Trains, buses, taxis, and airlines are public transport systems that issue tickets to their passengers. There are different types of tickets.
