Get Amino Tropes Media Browse Popular Forums Videos Go To Former Sisters Steppe Pride membersVoiced by: MoMo O'Brien (adult), Kaitlyn Brock (young)Nothing is a disabled African lioness and the main protagonist of My Pride. Badass Adorable: As a cub she took on an adult male lion and clawed his eye out. Bullying the Disabled: Nothing's mother and half-sisters treat her like dirt for having a limp. Cool Big Sis: Feather and Fire see Nothing as this, especially because she clawed out Feather's dad's eye. While his cousin and not his sister. Feather also likes her especially when she gives him more prey to him than to her. Dream-Crushing Handicap: Nothing really wanted to be a hunter, but her crippled leg made her unable to do so. Good Scars, Evil Scars: Nothing has a scar on her left eye after fighting with Quickmane, and she's a kind lion even if she is passive and diffident. Handicapped Badass: She manages to hunt and fight even with a limp. Heroic BSoD: Has one when Fire attacks Barkmane, reliving old moment Quickmane attacked Starmane. Reincarnation: Shes reincarnated from Kyoga, the chosen leader of the moon kingdom. Pinball Protagonist: Nothing spends most of the story reacting to certain scenarios but does not take action through her own decisions that much. What the Hell, Hero?: Chews Fire out when he "kills" Feather.Feather is Nothing's cousin, as well as one of the main protagonists of My Pride. Clashing Cousins: After spending his cubhood looking up to and liking Fire, all that took a sharp turn when Fire bumrushed and nearly killed Feather when the former wanted to take over Barkmane's pride. Faking the Dead: Appears to have died in episode 10, but The Stinger shows him running through the Prideless Stretch calling for Nothing. Nice Job Breaking It, Hero!: Feather tells a group of No-Manes that his father is blind in one eye. This leads No-Mane Proud to kill Quickmane and take over his pride, killing Feather's sisters as well. Taken A Level In Badass: He grows into a master strategist for hunting, and helps Fire bring down Barkmane, no worse for wear. Real Men Wear Pink: In the context of lion stereotypes at least. He grows up to be a very skilled hunter, which is not at all valued in male lions, as hunting is the females' job. Your Tradition Is Not Mine: Utterly despises the Pride Law and has no intention of ever following it, due to losing his father and siblings because of it, but not being Conditioned to Accept Horror by growing up in a pride like Nothing and Fire were.Voiced by: Caleb Calderon (adult), Sarah Moscato (young)Fire is Nothing's brother and one of the main characters. Bait the Dog: In the first several episodes he is shown to be rather kind and one of the few characters who is nice to Nothing. Come episode 10 he attempts to kill Feather and cruelly tells Nothing that she was a weak curse. Clashing Cousins: Fire was pretty nice and accommodated to Feather when he was a cub, but the two seemed to become more and more strained as the two got older. Not helping matters is Fire willingly going through with attacking Feather with the intent of killing him when he hoped to take over a pris. Dirty Coward: Kills his younger cousin just to secure a place as a Mane. Ear Nutch: Has one on his left ear in Episode 9. Good Scars, Evil Scars: He has a scar from Quickmane's attack, and a few scars on his face. Kick the Dog: Several in episode 10. He attempts to kill Feather after the new pride lionesses told him to, he attacks Nothing and tells her that she was a useless curse, and it is revealed while he was on the Stretch he killed his friend Tangle due to misunderstanding that over whether he was going to share his prey. Like Father, Like Son: Inherits Starmane's fur color and kind nature. Although it turns out he is more like his step-father than initially shown. My God, What Have I Done?: Has this reaction after defeating Nothing in combat, and then when Ghost shows him that Tangle was planning on sharing the meal he caught meaning he killed Tangle for no reason. Nice Guy: He was an overall friendly guy who stands out in a cast of mostly jerks. Too bad it doesn't last. Took a Level in Jerkass: Being a no-mane in the stretch and losing Tangled has made him much crueler when we see him again. He kills a Mane and then attempts to kill Feather shortly after that in desperation for a pride. It's revealed he also killed Tangled since he thought Tangled was leaving him to starve. Ungrateful Bastard: Tries to kill Feather despite Feather saving his life against Barkmane. Wouldn't Hurt a Child: When he picks a Mane to fight, he makes sure the pride doesn't have any children so he wouldn't have to kill cubs. This doesn't seem to apply to the adolescent Feather however.Voiced by: Helen O'ConnorNothing's mother and the Hunt Chief of the Sisters Steppe. Even Bad Men Love Their Mamas: Well had lionesses anyways. Despite being an abusive parent, Powerstrike cares deeply for her mother and is heartbroken at her death. Hate Sink: She's an abusive parent who thinks her daughter is worthless because she's disabled, tells her daughter that all she can see is her lost potential. Hypocrite: Powerstrike refuses to let Nothing call her "mother" since she's no longer a cub, but refers to Sharp tongue as mother. Later, she is referred to as "mother" by Nothing, but doesn't bat an eye. Jerkass Realization: Realizes what an ass she was to Nothing in episode 7.A prideless lion who became Nothing's mate until episode 5. Butch Lesbian: She has elements of this, both in appearance and personality. her mane resembles a punk hairstyle and she has pierced ears. She's also much more athletic and muscular than Nothing, and overall comes off as the more masculine of the two. Cats Are Snarkers: Mostly just her, but she is good at it. Her being solitary makes her similar to non-lion felines. Green-Eyed Monster: Was clearly jealous that Nothing prioritized spending time with her brother over her. Kick the Dog: She is upset that Nothing missed her naming ceremony, refuses to listen to Nothing's explanation, and tells her that if her brother dies it's her own fault. My God, What Have I Done?: Contemplates what she has had to do in episode 7. Then goes off with Powerstrike and Farleap to find her. Took a Level in Jerkass: Hover/Longrun was just a snarker when introduced, but after joining the Pride she has become colder, and rather cruelly snaps at Nothing for missing her naming ceremony. What the Hell, Hero?: Chews out Nothing for missing her naming ceremony.Nothing's half-sister. All Love Is Unrequited: Seems to have a crush on Hover, but Hover still loves Nothing. Alpha Bitch: Starts out with this vibe. It's pretty clear that she gets a kick out of belittling Nothing for her disability and the fact she failed her Huntress assessments, but she seems to be remorseful for her behavior after Naming vanishes. Platonic Declaration of Love: When Silentstalk begs for her to stay in Proudmane's pride, Farleap tells her she loves her, but she wants to go find Nothing with Hover/Longrun and Powerstrike.Sisters Steppe PrideThe Sisters Steppe is the main pride featured in My Pride.
