The battery back up system requires two AAA batteries (not included). We recommend you use a well-known brand of alkaline batteries for longest life and best performance. If you experience a power failure while batteries are installed, the display will turn off but the clock will continue to run and maintain your alarm settings.When power is restored the display will turn on again and the time This clock radio has two silicon rubber feet on the bottom cabinet to prevent the radio from sliding and to avoid scratching your furniture. These rubber feet are designed not to leave marks on furniture. However, the use of certain furniture polishes could cause the rubber feet to soften and stick to your furniture.If this radio is going to be placed on fine, highly polished wooden furniture, you should place small This model is equipped with a polarized AC power plug that has one wide blade and one narrow blade. This plug will only fit in a polarized AC outlet. This is a safety feature designed to prevent electric shock. Do not try to defeat this safety feature by filing the wider blade or using an adapter to make this plug fit in a non-polarized outlet.If this plug will not fit in your outlet you should have your outlet changed AC PlugAC OutletAUX INPress Page 62Clock / Preset / Pair Button When the unit is OFF press & hold to enter the clock setting mode. Manua.ls ensures that you will find the manual you are looking for in no time. Our database contains more than 1 million PDF manuals from more than 10,000 brands. Every day we add the latest manuals so that you will always find the product you areTo access the manual for your desired product, simply type the brand name and product type in the search bar and press Enter. The user-friendly interface provides an instant online view of the manual at no cost.along with the words Not Paired or similar message. Tap the message to finalize the pairing process. The Bluetooth indicator will cease blinking and remain 'On'. When selecting music or adjusting volume, ensure the clock radio's settings are optimized. To pair with a different device, navigate to the Bluetooth settings on your phone, select the original device, and choose 'Forget This Device' or 'Disconnect'. At the set wake-up time, the buzzer, radio, or Bluetooth device will activate, starting softly and gradually increasing in volume to gently wake you. The alarms will continue for one hour before shutting off and resetting. To cancel alarms, press the ALM buttons until they are disabled. When the alarm is active, press the SNOOZE/SLEEP/DIMMER button to pause it for 9 minutes, though it will resume after one hour. If the alarm is silent, use the SNOOZE/SLEEP/DIMMER button to activate the Sleep timer. If listening to the radio, it will play for 90 minutes before auto-shutoff. For Bluetooth, the music will continue until the timer reaches '00'. Adjust the sleep duration by pressing the SNOOZE/SLEEP/DIMMER button to reduce time in 10-minute increments. To power off the device, hold the POWER/MODE/ALM RESET button. For external audio, connect a 3.5mm cable to the AUX IN jack. Set the display to 'AUH' and begin playback. Adjust both the radio and external device volumes as needed. Replace batteries promptly when the Low Battery indicator appears. If the cabinet becomes dusty, wipe with a dry cloth. For smudges, use a dampened soft cloth with mild soap. Avoid spraying cleaners on the unit. Do not open the cabinet; refer service issues to authorized technicians. Timex Audio Products guarantees this product against defects for 90 days from purchase. Return it to the original store first; if unresolved SDI will repair or replace it free of charge.
