Thank you for all your efforts. It would have been easy if pro version was one off payment instead. I have had this app for a few days now, and it's really helping me to learn Japanese! But, when I'm trying to pronounce a sentence, the robot saying the words is very fast, and it's hard to understand what it's saying. I would love it if you could slow it down a little bit in settings, if that already is a thing, please tell me as I'm struggling to understand. Thank you for your time :) The best Dictionary I have ever used and it's just like me whatever i thought! Honestly, I'm using this app very comfortably! So Overall I like to use this app!© The developer, Youdao (Hong Kong) Limited, indicated that the app's privacy practices may include handling of data as described below.
